PRODUCT CATALOGUE
When Sé began in 2007, director and founder Pavlo Schtakleff had a goal – to reclaim the glamour and quality of 20th century furniture and to become a dynamic and innovative presence in the world of contemporary luxury design. Sé’s vision was to invite some of the world’s best design talent to produce collections, akin to an art gallery or a couture house, the ultimate object being to build a catalogue of highly-crafted and beautifully-finished objects, made of the finest, noble materials, by the best craftspeople in Europe. With timeless forms, a curvaceous aesthetic and a spirit of play, Sé pieces are now feted for their characterful, sculptural profiles, and their ability to captivate the senses.

Since its beginnings, this European design brand has stayed true to its founding ethos and to date, Sé has created four highly-acclaimed editions from French designer Damien Langlois-Meurinne, Spanish-born Jaime Hayon, Slovenia-based Nika Zupanc and the fourth collection from Switzerland-based Nigerian-American designer Ini Archibong. Under Sé’s stewardship, each designer brings their own sensibility and character, while harnessing a personality, polish and sheer sense of finish that is undeniably Sé. All our pieces are the products of the most exacting collaborations. They are sensual, tactile and cerebral, inviting the gaze and the touch as well as engaging the mind.

Headquartered in London and fabricated across Europe to the highest technical standards, Sé aims to make furniture that not only delights, but that will also become tomorrow’s heirlooms.

Damien Langlois-Meurinne

Collection I

In September 2005, he opened a showroom in the Marais district, where he exhibits his own line of furniture and lighting. For Langlois-Meurinne, quality is of the utmost importance. He works with the best French craftsmen to produce pieces that are made strictly to order. He favours the use of noble materials, such as linen, lacquer, bronze and solid woods (oak, walnut, sycamore, sipo). Furthermore, he believes in creating objects, which do more than simply fulfill a function. They also have an intrinsic aesthetic value. A Langlois-Meurinne mirror is not simply a mirror. It is also a sculptural object. “A successful design”, he says, “is one that is endowed with a touch of poetry, freedom and fantasy”.

In 2015 he was one of just 12 highly respected architects and interior designers selected to create an interior for AD France as part of their “À l’avant garde du style” exhibition at the Palais d’Iéna. Damien Langlois-Meurinne was recently commissioned by Louis Vuitton to create the ‘Totem Floral’ part of their limited edition accessories and furniture range. His work has been featured in a number of French and international publications. Among them, AD Germany, AD Spain, Elle Déco Japan, Decoration Germany, Eigenhuis Holland, Home Decor Singapore, Résidences France, Numéro France, Elle Déco France.

Spanish artist-designer Jaime Hayon was born in Madrid in 1974. His artistic vision was first fully exposed in the ‘Mediterranean Digital Baroque’ and ‘Mon Cirque’ installation. These collections put Jaime at the forefront of a new wave that blurred the lines between art, decoration and design and a renaissance in finely-crafted, intricate objects within the context of contemporary design culture. Jaime further defined his vision in subsequent solo exhibitions and shows at major galleries and design and art fairs all over the globe. His wide client base spans diverse functions and mediums, including domestic furniture for b.d. barcelona, Cassina, Fritz Hansen, &Tradition, and Magis; lighting fixtures for Parachilna, and Swarovski; and sophisticated objects for Bisazza, Lladró and Baccarat. He has also executed complete interiors for leading hotels, restaurants and retail establishments worldwide. Jaime currently resides in Valencia, with offices in Barcelona and Treviso (Italy). His work has appeared in the most prestigious art and design publications worldwide. He has won numerous awards, including multiple Elle Decoration International Design Awards, included by Wallpaper Magazine in its “Top 100” list and recognized by the magazine as one of the most influential creators of the last decade, and lauded as a “visionary” and one of the most creative icons by Times magazine.

Damien Langlois-Meurinne is a Paris-based designer and decorator. After starting his career in Christian Liaigre’s office, he was hired by the German fabric company Zimmer+Rohde to create an in-house furniture collection. In 2003, he set up his own firm, Agence D.L.M., and has since worked on a wide range of projects: offices, showrooms and several high-end residential commissions. Among them, a house in Saint-Tropez, a former artist’s atelier in Montparnasse, a flat in Megève and a 250m² apartment on Paris’s exclusive Avenue Foch. Each time, his aim is not to impose a style. Instead, he imagines schemes that are finely adapted to the specific space, as well as to the needs and desires of each client. In 2015 he was one of just 12 highly respected architects and interior designers selected to create an interior for AD France as part of their “À l’avant garde du style” exhibition at the Palais d’Iéna. Damien Langlois-Meurinne was recently commissioned by Louis Vuitton to create the ‘Totem Floral’ part of their limited edition accessories and furniture range. Founded in 2010, Design by Ini is the independent design studio of designer Ini Archibong. Archibong’s work is characterised by a deep interest in craftsmanship and integrity to his chosen material. His designs are enthralling, confounding and inspiring - inviting viewers to touch beyond the sublime in their encounter. His work draws from architecture, environmental and product design, as well as lifelong passions for mathematics, philosophy and world religions.

As a son of Nigerian immigrants to the United States, and a resident of US, Singapore and Switzerland, his diverse personal and professional background underlines his design ethic and ethos. “Ini has become one of America’s design ‘storytellers’, where product and narrative share equal billing”, said longtime mentor and collaborator Jerry Helling, Creative Director, Bernhardt Design.

Archibong's work has been exhibited globally at design events and in galleries including the Victoria and Albert Museum in London, Alyce de Roulet Williamson Gallery in Pasadena, Triode in Paris, and the Museo Bagatti Valsecchi in Milan, amongst others.

Working intimately with a variety of materials including glass, marble and leather, Ini’s practice is informed by the inherent properties unique to these materials. As a result, leading houses such as La Montre Hermès, de Sede, Ruinart, Christofle, Bernhardt Design and Herman Miller have consulted Archibong’s expertise in design and brand strategies.

Archibong graduated from the Art Center College of Design and ECAL and has previously been an ICFF Studio and Best of Neocon Award winner.

Archibong currently lives and works in Switzerland.

Slovenian product and interior designer Nika Zupanc graduated with distinction from the Academy of Fine Arts and Design in Ljubljana in 2000. Since then she has gained a sterling reputation for a body of work that in her own words, “challenges the rational, sober and utilitarian by giving voice to the intuitive, eclectic and intimate”. In 2015 she received the accolade of Elle ‘Woman of the Year’ in her home country.

Nika’s acclaimed collection for Sé is an extraordinary range of pieces based around the loose theme of the Olympics and sports clubs, including the Trophy table lamp and the ingenious three-sided Olympia Mirror. The collection received the Editor’s award for Best Furniture at the ICFF. Elsewhere, Nika has continued to build her portfolio to rising acclaim.

A particularly well-loved piece of hers is the Lolita table lamp, produced by Dutch design brand Moooi, and in the last few years, Nika has become one of the most closely-watched designers at Milan Design Week: not just for her stand-alone products but also for her installations, including Love Me More, curated by Rossana Orlandi.

She also made a Room of One’s Own for Esprit Dior, and designed the atmospheric As Aperitivo bar in her home town Ljubljana - fantastic immersions into her design sensibility.

Nika’s pieces carry an emotional charge as well as being exquisitely finished. There’s a touch of theatre and Film Noir in her work, and somehow her pieces make the user feel like an actor. As for Nika, explanation is unnecessary. Her visual language comes from deep within and is about “communicating the things that cannot be told.”

As a son of Nigerian immigrants to the United States, and a resident of US, Singapore and Switzerland, his diverse personal and professional background underlines his design ethic and ethos. “Ini has become one of America’s design ‘storytellers’, where product and narrative share equal billing”, said longtime mentor and collaborator Jerry Helling, Creative Director, Bernhardt Design.

Archibong’s work has been exhibited globally at design events and in galleries including the Victoria and Albert Museum in London, Alyce de Roulet Williamson Gallery in Pasadena, Triode in Paris, and the Museo Bagatti Valsecchi in Milan, amongst others.
